

The Board of Trustees ("Board") of the DOUGLAS COUNTY LIBRARIES, (the "District") adopted the following Policies in accordance with Colorado Library Law, Section 24-90-101, *et. seq.*, C.R.S. and the Bylaws adopted on 29 November 1990, and re-stated on 28 March 2002 and as from time to time may be amended. These Policies were previously adopted by the Board of the "Douglas County Public Library System" in accordance with Colorado Library Law and the Bylaws adopted on 21 April 1988.

When Policies refer to the Library Director it is understood that the Library Director has the right to delegate said responsibility to the Library Director's designees, unless otherwise noted.

These Policies have been organized into separate sections and subjects for the purposes of clarity, and the probable desire to amend and update said policies as may be required. Subsequent amendments to these policies shall be made in accordance with ARTICLE XIII of the Bylaws.

The Board establishes written policies to govern and guide library operation. The policies form the broad basis for procedures but are not a detailed course of action. The Library Director is responsible for the details of how policy is applied or complied with including related operational procedures.

ACCESS

A. LIBRARY BILL OF RIGHTS

The District offers library resources equitably and for the interest, information and enjoyment of customers. Time-honored principles and values have informed and guided libraries for decades. They are foundational to our beliefs and work.

The American Library Association adopted the Library Bill of Rights. The following statements are adapted from the Library Bill of Rights:

1. Books and other library resources should be provided for the interest, information and enlightenment of all people of the community, which the library serves. Materials should not be excluded because of the origin, background or views of those contributing to their creation.
2. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.
3. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.
4. Libraries should honor those concerned with resisting abridgment of free expression and free access to ideas.
5. A person's right to use the library should not be denied or abridged because of origin, age, background or views.
6. Libraries that make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

B. CHILDREN'S ACCESS TO LIBRARY RESOURCES

The District believes that parents and guardians are the arbiters of their children's use of library resources. To assist parents and guardians of children under the age of fifteen, the District will provide controls that parents and guardians can use to manage their children's use of library resources.

The District will provide specific information annually to all parents and guardians on how to exercise these controls for their children's use of library resources. This information will be provided to all new applicants for children's cards upon receipt of the card.

The District demonstrates our commitment to children by curating content and environments specifically designed for them. Our staff assists children and their parents and guardians as they navigate the District's array of resources. Our commitment to children exists inside a foundational mission to present a world of ideas and the artifacts of our culture for the entire community.

C. INTERNET RESOURCES

The District generally applies the same freedom, access and privacy commitments to internet use, but with several significant distinctions necessary to the nature and character of the digital world.

- Both federal and Colorado law require internet filtering and circumstances under which the library may remove filters. The District will fully comply with these legal mandates (Colorado Revised Statute 24-90-601; Children's Internet Protection Act (CIPA), Pub.L.No. 106-554)
- The District provides access to vast internet resources, but does not endorse or assume responsibility for sources merely because a customer accessed the resources via the library.
- The District will not permit illegal activities through any library technology system. The District will pursue appropriate legal action, including prosecution of suspects. Illegal activities, as defined by law, include and are not limited to accessing or trafficking in obscene content, child pornography, violations of copyright, and a variety of activities generally described as "criminal." In general, the District expects customers will be both law-abiding and civil. As appropriate, the District will monitor customer use of internet resources to validate system security and compliance with this policy.

D. DISRUPTIVE BEHAVIOR

Disruptive behavior endangers customers or staff, infringes on the rights of others using the library, or is illegal. This includes, but is not limited to, any behavior that results in damage or disruption of library property or services.

Staff will maintain a written Customer Code of Conduct to outline expected behavior when using district facilities or attending district events. Notifying customers to stop their behavior, contacting law enforcement, curtailing access to library resources, or banning a customer's use of the library are all customary responses to disruptive behavior.

A customer may appeal a ban by sending a written request to the Executive Library Director. The library shall respond within ten (10) days of an appeal. Should the individual choose to further appeal the ban, he or she may make an appeal to the Board of Trustees within thirty (30) days of the library's decision. The Board will issue its decision within sixty (60) days of receipt of the appeal. The decision of the Board will be final.

E. VULNERABLE CHILDREN

The District welcomes children. Parents and guardians are responsible for their children's behavior and well-being. When a child is deemed vulnerable, the District intervenes.

The vulnerable child is an unattended child of any age who the staff judges to be at risk.

If staff believe that a child is vulnerable, they will make a good faith attempt to contact the parent or guardian and then refer the matter to law enforcement.

F. THE USE OF SURVEILLANCE INFORMATION

The District uses surveillance equipment only for specified purposes:

1. To monitor the safety and security of staff and customers;
2. To monitor facility operations; and
3. To gather information on property damage from vandalism, theft, etc.

Surveillance information is for internal use only. The District will not release surveillance information to any third party without written permission from the Library Director, or unless the District is compelled to release the information by law or a library manager believes that timely release of the information is necessary for the health or safety of a customer at grave risk.

G. CUSTOMER PRIVACY

The District will comply with Colorado Revised Statutes 24-90-119 mandating the protection of customer privacy in the use of District resources.

The District maintains the confidentiality of customer information with several distinctions.

- The District will use customer information for the reasonable operation and improvement of the library.
- The District will release customer information with the customer's consent.
- The District will release customer information pursuant to subpoena, upon court order, or where otherwise required by law.

- Parents and guardians who have access to a minor's library card or its authorization number may access information for their minor children.

COLLECTION POLICY

The District's Access Policy is the foundation for this Collection Policy.

A. DISTRICT COLLECTION COMPOSITION

It is the policy of the District aims to develop and strengthen purchased content inventories that support the District's Vision Statement.

"Library Content Selection" refers to the decision to add library materials to the inventory or to retain items already in the inventory. The District offers content in a variety of formats to meet the needs and preferences of our community. The District will make every effort to correlate our content choices with community demand and interests. The District seeks to build a *market* driven inventory rather than any pre-conceived philosophy or bias. The District seeks content customers demand regardless of the content's origin, background, or particular viewpoint.

General Principles of Materials Selection and Retention

Each item is considered for selection or deselection and is evaluated with respect to its:

- Relevance to community needs and interests
- Contemporary significance, attention from critics, reviewers, and the public
- Popular interest, whether expressed or anticipated by customer request
- Author reputation and/or authority in the field
- Comprehensiveness and depth of treatment
- Relationship to the existing collection
- Durability of the format and whether the item is intended for library circulation
- Price and availability from our approved vendors

Final responsibility for materials selection rests with the Library Director. Responsibility for recommendations may be delegated to other staff members.

Suggestions from the public are welcome. The District may satisfy requests by a number of means beyond purchase.

B. DOUGLAS COUNTY ARCHIVES AND LOCAL HISTORY

The District's Douglas County Archives and Local History service operates to collect documents and artifacts in keeping with their mission.

APPEALS POLICY

The District's Access Policy is the foundation for this Appeals Policy.

Douglas County Libraries recognizes the importance of an appeals process that customers can use to voice opinions and ask for changes to materials, programs, and displays.

Customers must request formal reconsiderations in writing. Forms are available at all our libraries. Supervisors and managers will provide the form to any interested customer. The supervisor or manager will discuss the library's Collection Policy with the customer offering alternatives to suit their needs. The Executive Library Director will handle the request. The Executive Library Director will:

1. Examine the request and resource in question
2. Balance the competing values of the request and any necessary action
3. Respond in writing to the request within one week of receipt
4. Provide the customer a copy of this Appeals Policy and other applicable policies and inform the individual of the availability of a Board hearing

Should the customer desire to appeal the decision of the Executive Library Director, the Executive Library Director will assist the customer in making the request to the Board. The Board's decision will be final.

CODE OF ETHICS

A. STATEMENT ON PROFESSIONAL ETHICS

The American Library Association "Statement on Professional Ethics" as adopted 1939 Midwinter Meeting by the ALA Council and as amended June 30, 1981, June 28, 1995, and January 22, 2008 is included as a part of this Code of Ethics Policy, and the Board hereby endorses said statement as follows:

As members of the American Library Association, we recognize the importance of codifying and making known to the profession and to the general public the ethical principles that guide the work of librarians, other professionals providing information services, library trustees and library staffs.

Ethical dilemmas occur when values are in conflict. The American Library Association Code of Ethics states the values to which we are committed, and embodies the ethical responsibilities of the profession in this changing information environment.

We significantly influence or control the selection, organization, preservation, and dissemination of information. In a political system grounded in an informed citizenry we are members of a profession explicitly committed to intellectual freedom and the freedom of access to information. We have a special obligation to ensure the free flow of information and ideas to present and future generations.

The principles of this Code are expressed in broad statements to guide ethical decision making. These statements provide a framework; they cannot and do not dictate conduct to cover particular situations.

1. We provide the highest level of service to all library users through appropriate and usefully organized resources; equitable service policies; equitable access; and accurate, unbiased, and courteous responses to all requests.
2. We uphold the principles of intellectual freedom and resist all efforts to censor library resources.
3. We protect each library user's right to privacy and confidentiality with respect to information sought or received and resources consulted, borrowed, acquired or transmitted.
4. We respect intellectual property rights and advocate balance between the interests of information users and rights holders.

5. We treat co-workers and other colleagues with respect, fairness and good faith, and advocate conditions of employment that safeguard the rights and welfare of all employees or our institutions.
6. We do not advance private interests at the expense of library users, colleagues, or our employing institutions.
7. We distinguish between our personal convictions and professional duties and do not allow our personal beliefs to interfere with fair representation of the aims of our institutions or the provision of access to their information resources.
8. We strive for excellence in the profession by maintaining and enhancing our own knowledge and skills, by encouraging the professional development of co-workers, and by fostering the aspirations of potential members of the profession.

The District adds these additional points to the Statement on Professional Ethics:

9. Any employee upon being hired or promoted to a decision-making position shall disclose to the Board any potential conflict of interest. If during the course of employment, an area of potential conflict of interest develops for an employee in a decision making position, they are required at that time to make full disclosure. Conflict of Interest statements shall then be updated as circumstances warrant. All Conflict of Interest statements shall be referred to only to eliminate any potential conflict of interest.
10. No employee of the District shall accept a fee, gift or other valuable item for personal use from any person or group of persons where such gift or other valuable item is given in the hope or expectation of receiving a favor or better treatment than others wishing to do business with the District.

B. DISCLOSURE POLICY

The District requires that employees protect District information and avoid outside activities or relationships which do or could adversely influence their decisions or actions on the job.

Employees must avoid participating in any transaction or taking any action that may result in a conflict of interest with their position. Examples of conflict of interest include, but are not limited to, accepting gifts in violation of the District's Accepting Gifts Policy, fees, or other valuable items for personal use from any person or group of persons associated with, or seeking or providing business to the District; or being self-employed in an occupation which competes with the District. For more information regarding accepting gifts, please see the Accepting Gifts policy.

Employees with direct ownership, partnership or personal involvement in supplier companies or distribution outlets related to District business must report their involvement and relationship to supplier companies and distribution outlets through the District's Conflict of Interest form. Additionally, employees with relatives that the District does business with must report their relationship through the "Conflict of Interest" form.

If employees have any questions about a possible conflict of interest, they should discuss the matter with their supervisor and with the Human Resources Department for a final determination. The employee may be required to complete the "Conflict of Interest" form.

C. ACCEPTING GIFTS

The Board and District employees shall observe the ethical standards with regard to accepting gifts, as derived by Colorado law Section 24-18-104, C.R.S., as may be amended from time to time. It is a violation to accept gifts of substantial value or a substantial economic benefit tantamount to a gift of substantial value from individuals or firms with whom the District does business. Gifts that are not considered of substantial value or gifts of substantial economic benefit tantamount to gifts of substantial value include, but are not limited to, an unsolicited item of trivial value; a gift (including luncheons or dinners) with a fair market value of \$53.00 or less; an unsolicited token or award of appreciation; and unsolicited informational material, publications, or subscriptions related to the performance of official duties on the part of the Trustee or employee. Failure to comply with the aforementioned provisions may result in corrective action, up to and including termination of employment.

Section 24-18-104, C.R.S. should be consulted in determining whether a Trustee or employee may accept a gift. If an employee has any questions as to whether he or she may accept a particular gift, including payment for luncheons or dinners, the employee should discuss the matter with his or her supervisor and with the Human Resources Department for a final determination.

Adopted: October 30, 2013
Update: June 26, 2019

LENDING POLICY

The Lending Policy of the District is designed to facilitate the use of the library collection by Douglas County residents, and to allow sufficient time and freedom for use by the library customer while still being consistent with the best use of library resources. Library materials, except those which are judged by the Library Director as irreplaceable or needed in the reference collection for basic informational services, are available for use outside the library. Some databases may, on occasion, be restricted to in-house use. Records, which may be required for control of the use of library content on or off the premises, are for the sole purpose of protecting library property. In some cases, customers may opt to have borrowing records persist (a "personal history") for their own use. However, in such cases, records may be available for subpoena according to Section 24-90-119(2), C.R.S.

A. LIBRARY CARDS

The District controls the use of its library content, equipment, services and facilities by issuing library cards as follows:

1. One library card will be issued to any Colorado resident upon request. Picture identification and proof of residency is required when requesting a library card.
2. Persons 14 years of age and under will be required to provide a parent's or guardian's signature to validate the library card. Persons over 14 years of age will be issued a library card upon completion of the Library Card Application.
3. Temporary library cards, for a set period of time, are available to guests of Douglas County. Other restrictions may apply.
4. Replacement library cards will be available as needed.
5. Library card privileges may be limited or suspended by the Library Director, and revoked by the Board.

B. LIBRARY BORROWER RESPONSIBILITIES

Each customer of the District shall be responsible for the safekeeping of their card and all items checked out.

Late return of District materials will result in the assessment of fines to the borrower. Materials lost or damaged will be replaced or repaired at the expense of the borrower. Excessive fines or

other money due the library for late, damaged or lost materials must be remitted before a borrower's library card will be honored.

Any cost related to collection of fees may be passed on to the borrower. To ensure fair and equal access of materials to all customers, the District may utilize the services of a collection agency as a last resort to cover outstanding fees. Customers are issued sufficient notice prior to their record being submitted to any collection agency for further action. The Library Director serves as the arbitrator of disputes which may arise from this process, and makes every effort to address the individual circumstances of the customer, while striving to protect and preserve the availability of library content and assets of the District.

Fees for fines, repair, replacement or other assessments to be paid by the borrower are established by the Library Director and made available to all customers. The Library District is not responsible for any damage caused by its materials, including damage to CD/DVD/cassette players, game systems, or any electronic system (including hardware and software).

Although a Library Card provides free access to library content, certain other special services may be subject to payment of fees for those services. Such fees are established by the Library Director and shall be posted and made available to all library customers. Attempts will be made to keep library fees competitive with local markets.

Library content is not available for competitive or commercial purposes or for programs for which an admission fee is charged, without specific approval of the Library Director.

Adopted: October 30, 2013

COMMUNITY SERVICE POLICY

Douglas County Libraries, as a community institution, must respond to community needs, which are in addition to the normal provision of library resources and content. In response to these community needs, the Board establishes the following policies with respect to the use of library premises.

A. EXHIBIT SPACE AND BULLETIN BOARDS

In conjunction with its role as a place for the community to gather and exchange information on a variety of subjects, the District will make exhibit and bulletin board space available to groups from Douglas County and the surrounding area that are engaged in cultural, intellectual, recreational, civic, educational or charitable activities.

The District, in accordance with the American Library Association's Library Bill of Rights, will make this space available on an "equitable basis regardless of the beliefs or affiliations of the individuals or groups requesting space".

The District has guidelines concerning the manner, method and timing of exhibits and displays. These guidelines may also prohibit items that are in violation of any laws, pornographic, obscene or deemed to be derogatory, or offensive to civil standards.

Use of the District's facilities for displays, exhibits or notices does not constitute agreement or endorsement of the views presented, by the District, its Board or staff.

B. USE OF LIBRARY FACILITIES FOR MEETINGS, ACTIVITIES, AND/OR EVENTS

The District recognizes the community's need for space in which to meet for the purposes of promoting cultural, intellectual, recreational, civic, educational or charitable exchange.

District meeting room policies will be applied equally to all groups, regardless of their beliefs or affiliations, as set forth in the American Library Association's Bill of Rights. The District gives preference to non-profit, community groups. Because the District's facilities are public, total privacy cannot be guaranteed to any group using library meeting space.

The use of meeting rooms at each library will be governed by a set of procedures that will be administered by the Library Director. Procedures may vary among buildings and grounds as well as for different meeting spaces within each building. Users must comply with all stated procedures, and the District reserves the right to revoke use privileges at any time.

A group's use of District meeting space does not imply any endorsement of that group's opinions or views by the District, its Board or staff.

C. PETITIONS AND FREE SPEECH ACTIVITIES

The District recognizes and values free speech, but is also cognizant of its libraries' time honored and respected role as the neutral providers of information and as the providers of warm, hospitable community spaces. The District endeavors to ensure that library customers can enter and exit its libraries safely, unimpeded, or unduly hindered. Members of the public may use designated exterior areas for free speech activity, subject to the time, manner and place restrictions. These time, manner and place restrictions apply to all seven Douglas County Libraries locations.

D. PROGRAMS OR DEBATE

The District or other organizations/individuals may schedule programs or debates. Appropriate materials and literature may be distributed by the program/debate participants as part of the program or debate, directly prior to and during the program or debate.

E. ALCOHOL POLICY

General: Serving or consuming alcoholic beverages is prohibited on District property and within or around District buildings without the execution of and compliance with the District's event and hospitality services contract.

Conditions to Prior Written Permission to Serve Alcohol: Written permission to serve and consume wine beer, liquor, spirits, mixed drinks or cocktails (hereinafter "alcohol") may be granted to individuals or entities only under the following conditions:

- A written agreement shall be signed by the appropriate individual or legally authorized entity representative in the form provided by the District. The form will require the individual or entity to provide specified general liability and other relevant insurance coverages and to indemnify the District and its officers and employees from any and all liability for use of the District's property, including but not limited to alcohol-related liability. *Please request a written agreement from the District for review of all applicable terms.*
- The District's Director of Community Relations, as applicable, must be satisfied that the alcohol service and consumption requested meets all federal, state and local laws and regulations.
- No District tax revenue may be used to purchase alcohol served at District events.
- During the event at which alcohol is proposed to be served and consumed, any and all service and consumption of alcohol must take place within the event space contracted.
- The event at which alcohol is proposed to be served and consumed must be a closed event such that only those individuals or groups receiving written or electronic invitations

are eligible to attend. The event shall not be open to the general public or large classes of the general public but must be a special event of special relevance only to a discrete group of defined attendees (e.g., the event must not be one wherein attendance is induced by advertisements, leaflets or other materials aimed at unspecified individuals).

Violations of District Policy: Should the District or its staff become aware that any individual or entity is violating the District's alcoholic beverage policy during any event held on District property, the District will immediately terminate the event and all event attendees will be asked to leave the District's property forthwith. Additional consequences may be imposed on the event's organizer(s) via the written agreement specified above.

The District or the Foundation may accept gifts, and the conditions thereto; or take similar action to reject such gifts based upon the conditions of such gift or grant. All gifts, when accepted, become the property of the District or the Foundation, and may not be reclaimed by the donor.

The Library Director will manage all development and fund raising activities with the Foundation.

Adopted: October 30, 2013

Employment in the District carries with it special obligations and responsibilities. Each employee has the right, as an individual, to participate in public debate or to engage in social and political activity. The only restrictions on these activities are those imposed by law. Because personal views and activities may be interpreted as representative of the institution in which the individual is employed, careful distinction must always be made between: (a) private actions of the employee as an individual and (b) those actions one is authorized to take in the name of the District.

Issues involving the Executive Library Director or board members are referred to the Board President, or if involving the Board President, the Board Vice-President. The Board President or Vice-President must refer those issues to legal counsel for consultation and investigation. The Board President or Vice-President will decide resolution, either based on legal counsel advice, or by bringing the matter before the full board for action. The Board President or Vice-President must communicate the resolution of investigations to the claimant, the board, and the Executive Library Director.
